Summary

Seasoned Product Designer with over 10 years of experience across start-ups and growth stage companies crafting E-commerce, SaaS and other consumer-facing products. I possess a unique blend of design proficiency, technical insight, and business acumen that enables me to lead collaborative initiatives to craft impactful, user-centered solutions that fuel business growth and elevate user satisfaction. I thrive when working from concept to delivery, partnering with cross-functional teams and collaborating closely with developers. My colleagues appreciate me for my founder mindset, detail-oriented approach, and commitment to team collaboration, with a focus on solving ambiguous problems and boosting revenue.

Experience

Senior Product Designer | Mentor Collective

April 2021 - September 2023, Remote

Ed-Tech start-up, bridging the equity gap in higher-education by serving over 2M users across 200+ academic institutions with human support and a SaaS platform.

- SaaS Platform Overhaul: Led redesign of the SaaS platform for both the B2C and B2B experiences, employing a mobile-first approach and adhering to WCAG AA standards.
- **Design Systems Creation**: Spearheaded creation of a company-wide design system, harmonizing design practices and boosting operational efficiency for both mobile and desktop experiences.
- UX Research: Leveraged various user research methods to collect both quantitative and qualitative key insights into diverse user needs and preferences, informing the development of user-centric solutions.
- **End-to-End Design**: Delivered the full spectrum of design tasks, from conceptual wireframes to high-fidelity interfaces using Figma, aligning with user and business goals.
- Cross-Functional Collaboration: Contributed to a collaborative environment, working with globally distributed, remote cross-functional teams, including product managers and engineering.
- **Quality Assurance**: Ensured quality control for new feature deployments, upholding product excellence and user satisfaction.
- Mentoring Junior Designers: Provided mentorship and guidance to junior designers and cross-functional team members, fostering constructive feedback and a learning-oriented design culture.

Impact: Designed the extensive overhaul of the SaaS platform for both B2C and B2B experiences, following WCAG AA accessibility standards and mobile-first approach. This initiative resulted in a substantial 116% increase in user engagement and unlocked the platform's scalability. Implemented and maintained a design system used by 3 product/engineering teams across 20+ projects.

Co-Founder & Chief of Product | MoGraph Mentor

January 2019 - April 2022, Remote

Co-founded an Ed-Tech startup helping motion designers develop their career by providing group mentorship and specialized curriculum, delivered by industry-leading professionals in Design and Animation.

- Strategic Leadership & Product Development: Oversaw the inception and evolution of MoGraph Mentor, wearing multiple hats spanning product development, design, development, marketing, and business strategy, contributing to the company's strategic direction and overall success.
- Market & User Research: Conducted market and user research, translating insights into a comprehensive and forward-looking product roadmap, driving product innovation and user-centered design.
- Strategic Feature Prioritization: Executed strategic prioritization of product features, shaping the product's trajectory and ensuring flexibility and alignment with user needs and business objectives.
- Design & Technical Execution: Led the end-to-end product creation with wireframes, prototypes, and user interfaces, managing technical implementations to bridge design and code, ensuring an optimal and user-friendly workflow and experience.
- Content Curation & Collaboration: Initiated strong collaborations with business partners and content creators to curate and deliver compelling, high-quality educational content, enhancing learner engagement and experience.
- Cross-Functional Team Management: Managed a cross-functional team of marketers and creatives, orchestrating go-to-market and product marketing strategies, fostering a cohesive and dynamic working environment.

Impact: Achieved six-figure revenue milestone within two years, impacting over 50,000 students and creating a vibrant and interactive learning community.

Founder & Senior Design Consultant | Inventive Format August 2018 - July 2022, Miami, FL

Web and branding consultancy, offering digital solutions catered to small to medium-sized enterprises, with a focus on driving brand visibility and business growth through innovative and user-centric digital strategies.

- Strategic Market Research: Conducted market research and gathered user insights to provide tailored services, including web design, development, and digital marketing strategies, addressing the unique needs of each client.
- Client Education & Mentorship: Educated clients about the latest web technologies, fostering digital literacy and empowerment. Mentored junior designers and marketers, cultivating a learning-centric environment.
- End-to-End Project Execution: Successfully executed over 20 projects, emphasizing research-driven, user-centered design and development approaches, ensuring the delivery of user experiences and alignment with client objectives.
- Digital Marketing Strategy: Developed and implemented digital marketing strategies, enhancing brand visibility, engagement, and contributing to business growth.
- Branding & Graphic Design: Helped bring client's vision to life by providing branding and graphic design services, ensuring seamless alignment and realization of business objectives through tailored solutions.

Impact: Led collective efforts resulting in the generation of over \$700K in revenue, showcasing tangible results and significant return on investment for clients.

Product Designer | Bakerly

February 2018 - January 2019, Miami, FL

At Bakerly, a French food & beverage start-up, I played a critical role in shaping the e-commerce initiative of the business by leading user research and designing web and mobile solutions while collaborating closely with Sales, Marketing and Product teams. Aside from my role as Product Designer, I also contributed to compelling package designs and the brand's visual identity.

UX & UI Developer | Self-employed

January 2017 - January 2018, Remote

During travels across multiple continents, I offered freelance Agile UI/UX Developer services to a range of small- to medium-sized businesses, focusing on user research, web design, and web development.

User Experience Designer | 1001Pharmacies

January 2015 - January 2017, France

E-commerce start-up selling drugstore products, where I worked with a Lean and Agile cross-functional team to build a transformative v2 of a web and mobile E-commerce marketplace.

- Full spectrum of UX responsibilities: Performed user research and usability testing to guide development of search & discovery feature and checkout funnel of E-commerce platform. Delivered comprehensive personas, journey maps and market research to guide product roadmap decisions.
- A/B tests and user tracking: Collaboratively established A/B testing tools and processes and user tracking, providing valuable insights into user needs and preferences.
- Web and mobile design: Crafted wireframes, prototypes and high-fidelity UI in Sketch, facilitating communication across cross-functional teams and ensuring alignment with real user feedback.
- Frontend development: Actively contributed to frontend development tasks, using HTML, CSS, and Javascript (ES6), and wrote functional tests to ensure flawless user experience.

UI Developer | Publika

January 2012 - January 2015, France

Publika is a web and digital marketing agency. Leveraging HTML, CSS, Javascript and Adobe Creative Suite, I played a key role in converting creative concepts into precise, user-friendly responsive web solutions. Responsibility included collaborating with project managers, digital marketers, and back-end developers, contributing to quality assurance, project planning, and client interaction to deliver pixel-perfect outcomes aligned with creative visions.

Key achievement: Led the frontend development of an in-house content management system (CMS) platform for web and mobile solutions providing value to more than 100 clients across diverse industries.

Strengths

Founder mindset

Entrepreneurial spirit honed by founding a startup; adapts quickly, self-motivated, works autonomously, embraces ambiguity, drives innovation, and strategic prioritizations.

Cross-functional team collaborator

Skilled in communicating and collaborating with diverse teams thanks to my background as a freelancer, working in a web agency and founding a start-up; fosters collaboration, empathetic, bridges gaps between functions, aligns goals, and mentors junior team members.

Strategic Thinker

Design is not only about visual appeal. I always make sure to have a strategic approach to solve complex problems that also account for business needs and budget constraints; combine analysis, creativity, and foresight to navigate and optimize short- to long-term solutions.
