

Mathieu Fortune

Senior / Lead Product Designer

Raleigh, North Carolina | [Linkedin](#) | [Portfolio Website](#) | +1 786 779 6144 | pro.mathieu.fortune@gmail.com

SUMMARY

Product designer with 14 years of experience across Insurtech, EdTech, Climate Tech, and E-commerce, shipping SaaS platforms and native mobile apps across B2B, B2C, and B2B2C from 0 to 1 through scale. Co-founded a company that reached 50,000 users and six-figure revenue, and brings that same ownership mindset to every team across design, product, and engineering.

RELEVANT SKILLS

AI-augmented workflows • User research • Usability testing • Figma • Accessibility (WCAG) • Native mobile • Design systems • Product strategy • Agile • 0 to 1 product development • Cross-functional collaboration • Stakeholder management • HTML • CSS • Typescript

EXPERIENCE

Jewelers Mutual, Raleigh, NC (Hybrid)

February 2025 - April 2026

Senior Product Designer

Brought in as the first strategic product design hire at Jewelers Mutual, the leading specialty jewelry insurer in North America, to lead outcome-based, Agile product development on a pilot squad for a new direct-to-consumer native mobile app.

- Drove a 65% conversion rate and 1,000+ customer activations owning a D2C native mobile conversion funnel end to end, from marketing automation campaigns through checkout.
- Used AI-augmented workflow (Claude Code, Figma MCP) to compress product discovery and ship a fully interactive mobile prototype in two sprints, enabling senior executives to pressure-test product direction before any engineering investment was committed.
- Built organizational buy-in for product-led development through documentation and co-presenting with VP-level leadership, driving adoption across 7 squads, while mentoring 4 cross-functional team members and influencing 20+ colleagues to connect their work to real business outcomes.

Carbon Direct, Seattle, WA (Remote)

December 2023 - August 2024

Senior Product Designer

Series C climate tech startup delivering corporate carbon management through a SaaS platform and ESG advisory services to Fortune 500 companies and governments. Worked on the data intake, processing, and reporting layer of the platform.

- Enabled a \$750K client contract by designing ML and LLM-powered data workflows that turned large-scale financial data into audit-ready GHG reports, cutting manual corrections by 20% and improving ingestion efficiency by 15%.
- Reached climate and carbon management domain fluency within weeks, enabling direct collaboration with climate scientists and producing product insights that shaped more impactful, domain-grounded solutions for customers.
- Led a Design Sprint with product, engineering and climate SMEs that produced a data-backed no-go decision on a new product vertical, preventing misallocated roadmap and engineering investment.

Mentor Collective, Boston, MA (Remote)

April 2021 - September 2023

Senior Product Designer

Series A mission-driven EdTech startup offering a SaaS platform and personalized support to help bridge the equity gap in higher education, serving 2 million users across 200+ institutions in the U.S.

- Drove a 116% increase in MAU and a 5-point NPS gain by leading a full design overhaul of a B2B2C SaaS platform, delivering responsive, WCAG AA-compliant solutions.
- Implemented and maintained a design system adopted by 30+ team members, accelerating design-to-engineering handoff and removing accessibility bottlenecks across the platform.
- Conducted 30+ user interviews and 20+ workshops leveraging Pendo.io and Dovetail, including research that redirected a partner-facing feature that had failed early testing to become one of the platform's most adopted.
- Built design literacy across 7 cross-functional team members by self-initiating workshops on Figma, frontend basics, and design handoff, earning consistent recognition at quarterly celebrations.

Mograph Mentor, Sarasota, FL (Remote)

January 2019 - April 2022

Co-Founder & Founding Product Designer

Bootstrapped online education business offering group mentorship and on-demand training for motion designers, reaching 50,000 users worldwide and six-figure annual revenue within three years.

- Designed and developed the full platform stack end to end, including marketing site, LMS, and live group mentorship infrastructure, as sole owner of product strategy, design, and engineering with no outside funding or technical team.
- Drove revenue growth through full-stack go-to-market ownership including marketing automation campaigns, social media, and paid advertising using Customer.io and Zapier.
- Led a team of 4 to bring 15 course and mentorship offerings to market.

Inventive Format, Miami, FL

August 2018 - July 2022

Founder & Senior Design Consultant

Independent design and development studio serving SMB and startup clients across web, e-commerce, and brand identity.

- Contributed an estimated \$700K in client revenue across 20+ projects, owning strategy, design, and development as a one-person studio from brief to launch.
- Advised founders and clients, defining positioning, product direction, and go-to-market for early-stage companies.

Bakerly, Miami, FL

February 2018 - January 2019

Product Designer

- Designed and built Bakerly's e-commerce portal and optimized marketing website, opening a direct-to-consumer sales channel and improving site performances by 20%

Self-employed, SE Asia (Remote)

January 2017 - January 2018

Freelance UX Designer & Front-end Developer

- Delivered UX design and front-end development across multiple client engagements simultaneously, managing scoping, timelines, and stakeholder expectations independently across time zones and language barriers.

1001Pharmacies, Montpellier, France

January 2015 - January 2017

UX Designer & Front-end Developer

- Established the UX practice from scratch for a web and mobile e-commerce marketplace, introducing user research, usability testing, and journey mapping to inform product roadmap decisions across design, product, and engineering.
- Implemented A/B testing and user behavior tracking across 10+ landing pages, generating insights that shaped ongoing checkout funnel and conversion optimization.
- Operated as hybrid UX designer, front-end developer, and Scrum Master, contributing production HTML, CSS, and JavaScript (ES6) while facilitating Agile ceremonies across cross-functional engineering.

Publika, Montpellier, France

January 2012 - January 2015

Web Designer & Front-end Developer

- Delivered 60+ web and mobile projects at a digital marketing agency, co-building a proprietary CMS platform adopted across 30+ client projects spanning marketing websites, e-commerce, and social media products.
